Territorial Sovereignty.

Having disposed of the arguments in favor of popular sovereignty, derived from the supposed analogous condition of the old Colonial and the present Territorial governments, we shall proceed to examine and discuss one or two other positions assumed by Judge Douglas in his recent essay in Harper. So far as precedents are concerned, they certainly cannot be relied on to sustain the views of Judge Douglas, and he must, therefore, discover some other mode of elucidating his favorite dogma of squatter sovereignty, or else abandon it. It will suffice and unsatisfactory.

The Territories of the United States are held by the General Government in trust for the several States. They were acquired alike by the blood and treasure of the people, and in them the citizens of every State should be equally protected in their rights. The citizen of Ohio should be permitted to migrate thither with his property, and be protected in its enjoyment, and the citizens of Kentucky should enjoy a similar right. This is fair both to the people of the North and the South. The inhabitants of the Territories are settled on lands belonging to the States, and they should not seek to discriminate against the rights of any State. They live under a government purely temporary, and should not attempt to make permanent institutions. The extent of the power of Territorial authority should be protected, not to establish or prohibit rights. This is the fair and legitimate extent of Territorial authority, and so long as restrained with these limits, will not be questioned or opposed by the people of the South.

We can see no reason in the doctrine of Territorial Sovereignty. We do not know where it commences or where it terminates. A Territorial Government is derivative and complex. Congress breathes into it vitality, by the passage of an organic act. This is a pure act of intervention on the part of Congress. That body intervenes and declares what shall be the boundary of the Territory, who shall constitute its legislature, and time and again it has required that all Territorial laws should be under its control and supervision. As late as 1858, in the Oregon bill, an article was inserted, providing that "all laws passed by the Legislative Assembly shall be submitted to the Congress of the United States, and if disapproved shall be null and of no effect," and if we mistake not, this bill was voted for by Judge Douglas.

The judicial and executive departments are completely under the control of the General Government. The term of office of the duties pertaining thereto, are marked out and limited by Congressional enactments, and the offices are filled by appointment of the Federal Executive. It is, then, very certain that neither the judicial nor the executive branch of a Territory is sovereign.

Where then, does Territorial sovereignty begin? Does it commence with the Legislative Department, and is it possible that that department is sovereign, whilst the other co-ordinate departments are not sovereign? If so, then there exists in a Territory a divided sovereignty—a species of government which has no existence.

Even Judge Douglas has, on various occasions, shown in his discussions of this question, that he did not regard Territorial governments as sovereign. He declared in his celebrated Springfield speech, that Congress possessed the right to repeal the organic act of the Territory of Utah, and could annex it to a county to an adjoining Territory, and thereby destroy not only its sovereignty, but even its territorial existence. In his speech on the Lecompton question, he held that the sovereignty of a Territory did not possess the legal right to call a Convention to frame a State Constitution, unless they were permitted to do so. He also said, that the name of the State, and the date of its admission, and obscure local authorities, among whom the shareholders of the Union may be altogether excluded from partial representation, whose members and constituents are comparatively irre-

responsible. Certainly, Mr. Douglas' doctrine is equally obnoxious in theory, with that of Mr. Seward, and much more easily reduced to practical adoption.

U. S. SENATOR.—Now that our State election is over and the Opposition is demolished, some of our contemporaries are speculating upon the probable action of the Kentucky Legislature in the election of U. S. Senator. M. D. C. GORDON.

Each senator has his particular favorite, who, of all others, is the very best man calculated to fill the high position, and we may expect some war and maneuvering on the question of succession. The Democrats, however, are within its bosom many men, in all parts of the State, who are eminently qualified to fill any office, however exalted, known to our Constitution and laws. Let us, then, tell the Senate, that our opposition of a full body of Southern repre-

sents subjects of watchful attention and jealous concern to the whole people of the Union. Mr. Douglass' doctrine may readily exclude slave property from the Territories. Mr. Douglas contends that this power resides in the local authorities of each Territory.

He also, that as the great question of principle involved is concerned, there is no material differ-

ence between Mr. Douglas and Mr. Seward.

Both deny the inalienable right of the citizens of each State to enjoy, on their territory, all the rights lawfully given by any one of the States.

Mr. Seward attributes the power to abrogate the right to a general federal legislation body,

and that neither the Congress, the Execu-

tive, nor the Judicial Departments can

rightfully interfere to protect slave property from such hostile action of mere Territorial authori-

ties.

Indian degradations continued. Isolated par-
ties of miners were frequently cut off.

From Leavenworth.

LEAVENWORTH, Sept. 5.—There was a collision
between the Democrats and Republicans in this
place on Saturday night. Both parties had demon-
strations prior to the municipal election to-
day. The Republicans were holding a meeting
at the hall of the National Guards, and the
catholic torchlight procession attempted to pass
through. Being resisted, a general melee ensued,
several hundred on both sides participating,
and some shots were fired. One man was killed
and fire was severely cut down.

The Republicans maintained their ground,
and proceeded with their meeting. The rally
was believed to be perfectly accidental, and is un-
doubtedly so. The Republicans were well prepared
of renewed disturbances to-day, but their
preventive measures have been taken.

The Denver express of the 27th arrived yester-
day, bringing news of the fall of Fort Sumter.

Again some miners have prepared the
feet through strata of sulphur of iron, finding
rich dirt below. The discoveries on the Colorado
prove remunerative.

Indian depredations continued. Isolated par-
ties of miners were frequently cut off.

From San Francisco.

New Orleans, Sept. 5.—The steamer Ha-
waiian, bound for San Francisco dates to the
20th, and Minstrels date to the 1st. The Donora
and Cortez brought over \$200,000 from Panama,
and 1,200 passengers.

A British man-of-war has arrived from Vancouver
to-day, and is reported to bring dispatches from Eng-
land concerning the San Juan disturbances.

No arrivals reported.

Business improved. Provisions have an advanc-
ing tendency. Candles advanced 3½¢. Sugar
is up 1½¢. Tea 10¢. Butter 10¢. Eggs 10¢.

VANCOUVER, Aug. 20.—General Harmer, on
the 10th, ordered four of 100—of artillery from Fort
Washington to reinforce Captain Pickett, who still
occupied San Juan unassisted.

The River during the last 24 hours has been at a stand with 5 feet 1 inch water in the canal east even by the mark. The weather turned quite cool and very fresh for the season, with strong indications of frost.

At Pittsburgh the river continues to fall with only 15 inches water remaining in the channel or at Glassford.

All day between Cincinnati and this port the river is getting low despite the late rains, and the mail boat yesterday reported four boats aground at Warsaw at once. They all got off, however, in the waggon, and at a late hour at night she had not arrived, and may possibly be stuck there yet.

The last arrival from the lower Ohio reported less than five feet water on the Ohio at New Haven, both ports, with high ground at Flint Hill, and the time reports the Alvin Adams and the Ashport aground at Caseyville.

The Alvin Adams, the hull was low to the bow of the "Fairy Play," No. 2, and the master to her rear.

She was got out of the channel and grounded just above Caseyville, where it is expected she will remain until floated off by a tow.

The Times attempted to pull her off but could not do so.

The Evansville got from Carrollton and Madison at an early hour last evening, and to Frank Strader, the clerk, we are indebted for a manifest.

The river has not risen any, and the late rain must have come in "the ground."

The Evansville returns to Madison and Carrollton at 10 o'clock to-day.

The FAIR PLAY—VICKSBURG AND SUN FLOWER PACKERS—NEW ORLEANS.—This evening the Fair Play, the Vicksbury and Sun Flower W. Carter for the Vicksbury and Sun Flower trade, starts South on her first trip. She is a very neat, staunch boat, well fitted and comfortable furnished side wheel boat, with a really beautiful cabin, and accommodations for fifty passengers. Her deck is covered with a large deck, and each is conveniently arranged and furnished with the best bedding, superior spring mattresses, and mosquito bunks, all made by the enterprising firm of Marshall & Duvalson. Her cabin is in London shown to be equal to any in the city; after which a large lot of jewelry of all kinds, Gold and Silver Watches, embarking every excellent and special.
